1. Name and Address of Person

James R. Rapisardi
C/O Rosario J. Rapisardi
107 Township Line Road
Swedesboro, N.J. 08085

12. Regional Project No.

11-02-93

13. County

Gloucester

HIGHLY ERODIBLE LAND AND WETLAND
CONSERVATION DETERMINATION

4. Name of USDA Agency or Federal Receiving Determination

15. Farm No. and Tract No.

1-13

6531

SECTION I - HIGHLY ERODIBLE LAND

6. Was a survey now available for making a highly erodible land determination? Yes ☒ No ☐
7. Are there highly erodible soil map units on this farm? Yes ☒ No ☐
8. List highly erodible fields that, according to ASCS records, were used to produce an agricultural commodity in any crop year during 1981-1985.

FIELD NO. (a)	TOTAL ACRES
1	14.2

9. List highly erodible fields that have been or will be converted for the production of agricultural commodities and, according to ASCS records, were not used for this purpose in any crop year during 1981-1985; and were not enrolled in a USDA soil conservation program.

10. This Highly Erodible Land determination was completed in the

Office ☐Field ☒

SECTION II - WETLAND

11. Are there hydric soils on this farm? Yes ☒ No ☐
12. Wetlands (W) including abandoned wetlands, or Fanned Wetlands (FW) or Fanned Wetlands Pasture (FWP). Wetlands may be farmed under natural conditions. Fanned Wetlands and Fanned Wetlands Pasture may be farmed and maintained in the same manner as they were prior to December 23, 1985, as long as they are not abandoned.
13. Prior Converted Cropland (PCC). Wetlands that were converted prior to December 23, 1985. The use, management, drainage, and addition of prior converted cropland (PCC) are not subject to the wetland conservation provisions unless the area reverts to wetland as a result of abandonment.
14. Artificial Wetlands (AW). Artificial wetlands includes irrigation-induced wetlands. These wetlands are not subject to the wetland conservation provisions.
15. Minimal Effect Wetlands (MEW). These wetlands are to be farmed according to the minimal effect agreement signed when the minimal effect determination was made.
16. Mitigation Wetlands (MW). Wetlands on which a person is actively mitigating a frequently cropped area of a wetland converted between December 23, 1985 and November 28, 1990.
17. Restoration with Violation (RWV-year). A restored wetland that was in violation as a result of conversion after November 28, 1990, or the planting of an agricultural commodity or forage crop.
18. Restoration without Violation (RSW). A restored wetland converted between December 23, 1985 and November 28, 1990 on which an agricultural commodity has not been planted.
19. Replacement Wetlands (RPW). Wetlands which are converted for purposes other than to increase production, where the wetland values are being replaced at a second site.
20. Good Faith Wetlands (GFW-year). Wetlands on which ASCS has determined a violation to be in good faith and the wetland has been restored.
21. Converted Wetlands (CW). Wetlands converted after December 23, 1985 and prior to November 28, 1990. In any year that an agricultural commodity is planted on these Converted Wetlands, you will be ineligible for USDA benefits.
22. Converted Wetland (CW-year). Wetlands converted after November 28, 1990. You will be ineligible for USDA program benefits until the wetland is restored.
23. Converted Wetland Non-Agricultural use (CWNMA). Wetlands that are converted for trees, fish production, shrubs, urbanization, vineyards or building and road construction.
24. Converted Wetland Technical Error (CWTE). Wetlands that were converted as a result of incorrect determination by SCS.
25. The planned alteration measures on wetlands in fields _____ are considered maintenance and are in compliance with FSA.
26. The planned alteration measures on wetlands in fields _____ are not considered to be maintenance and are in compliance with FSA.
27. The wetland determination was completed in the office ☐ field ☒ and was delivered ☐ mailed ☒ to the person on 11-5-93.
28. Remarks

29. I certify that the above determination is correct and adequate for use in determining eligibility for USDA program benefits and that wetland hydrology, hydric soils, and hydrophytic vegetation under normal circumstances exist on all areas outlined as

30. Signature of SCS District Conservationist

C. A. Carter
